## Happy Holiday from ngnuke.com

25/12/2009 13:26 by vector

ngnuke.com would like to wish everyone a Happy Holiday and hope you are surrounded by family and friends during this special time of the year. Take some time to just relax and enjoy the little things that mean the most.

Also the site is at the point where i can now take some custom graphics requests for Topic Icons and Custom Avatars to match your theme. So come on over to [www.ngnuke.com](http://www.ngnuke.com) and register so you can make your graphics requests. The small things can make a big difference. Let me help you by making some graphics to match your sites theme..

Thank you and Happy Holidays,

webmaster at ngnuke (George Halstead)
